

APPEAL FOR DONATIONS

During the 2015 SKF meeting held at the ICTP in Trieste, Prof. Zerah Sayers had arranged a round table with researchers involved in SESAME. Two of the participants, a Palestinian and an Israeli expressed the view that, in addition to their scientific activities, it would be desirable to have a meeting place where scientists coming from different, often belligerent countries could discuss and be friend.

Everybody knows the role played by the CERN cafeteria during the Cold War where Europeans, American and Russian scientists could meet and messages where conveyed to governments thus bringing important results (e.g. the role of Sakharov).

The idea of setting up a **Cafeteria at the SESAME site** therefore emerged and, as President of SKF, I offered during the session that the Foundation would raise the necessary money by voluntary contributions coming from its network.

In agreement with the Foundation Council, we set the goal of raising 30'000 euros for that purpose before the end of 2016. If you agree to support that initiative, we kindly ask you to send a contribution directly to the Foundation's bank account in Switzerland. An acknowledgement and a fiscal certificate will be sent to you for your tax matters.

Geneva, 25 September 2016

Robert Klapisch

A handwritten signature in black ink that reads "R Klapisch". The signature is stylized with a large 'R' and a horizontal line above the 'K'.

I support this initiative of the Foundation and make the donation of :

- 30€

- 60€

- 120 €

- Or more:

to the Sharing Knowledge Foundation Bank Account in Euros in Switzerland:

Account Name : Fondation "Partager le Savoir"

Bank Name: Union des Banques Suisses

City: Geneva

IBAN: CH230024024028427460Q

BIC : UBSWCHZH80A
